PROPERTY MANAGEMENT AND MAINTENANCE SERVICES BRANCH STATUS REPORT
Reporting for Month of November 2007

Property Management & Maintenance Services Branch

Oahu

- Applications completely processed – 0
- Remaining to be inputted at beginning of November – 1,085
- Number of vacancies filled – 18
- Number of applications received - 260

Big Island

- Number of vacancies filled – 18

Maui

- Number of vacancies filled – 4

Kauai

- Number of vacancies filled – 0

Vacant Unit Summary

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov
C Units	96	96	101	105	105	108	106	106	107	112	156
Rent Ready Units	149	123	136	112	101	112	112	109	60	83	82
A & B Units	170	179	141	135	125	124	118	118	159	148	176
Total # of Units	415	398	378	352	331	344	336	333	326	343	414

Table Legend:

- C Units: Requires Construction Management Section (CMS) assistance to contract for major repairs and renovations.
- Rent Ready Units: Definition tightened up for September 2007 forward to reflect units actually ready for immediate occupancy. Previous months unit counts included units that needed appliances, cleaning, or were not quite rent ready.
- A & B Units: Generally, Asset Management Projects (AMPs), formerly known as Management Units (MUs), maintenance staff to prepare units for occupancy.
- Increase of 71 total number of units vacant from October (343) to November (414) because 49 vacant units at Kalihi Valley Homes became "undemolished" and 26 units completed renovation at Ka Hale Kahaluu (49 + 26 = 75).

Security Budget Report

State Legislators asked how HPHA would use an additional $1.5 million in security funds, for a total of $3 million per year.

Project	Current Cost	Amount Needed	Total Cost	Notes
Mayor Wright Homes	$333,074	$235,582	$568,656	Currently we have one-24 hour gate guard and two-6 hour roving shifts of two guards each. This will be changed to one 24 hour gate guard and two-8 hour shifts of two off duty H.P.D. officers or off duty sheriffs.
Kalihi Valley Homes	$438,450	$283,998	$722,448	Currently we have two-24 hour gate guards and one-8 hour roving shifts of two guards. This will be changed to two-24 hour gate guards and two-8 hour shifts of three off duty H.P.D officers or off duty sheriffs or three-8 hour shifts of two roving guards.
Puuwai Momi	$276,452	$357,044	$633,496	Currently we have one-7 hour roving shift of four guards Monday-Thursday and one-7 hour roving shifts of five guards Friday-Sunday. This will be changed to two-8 hour shifts of two private security gate guards plus two-8 hours shifts of two off duty H.P.D. officers or off duty sheriffs on each shift Sunday-Saturday.
Kalakaua Homes	$82,105	$82,105	$164,210	Currently we have one private guard on each shift. This will be changed to two-private guards on each shift.
Kalanihuia	$35,000	$21,091	$56,091	Currently we have one-4 hour shift with one guard Sunday-Saturday. This will be changed to one-8 hour shift with one guard Sunday-Saturday
Kam Homes/Kaahumanu	$257,664	$128,832	$386,498	Currently we have two-8 hour shifts of two private guards on each shift. This will be changed to add a 3rd 8 hour shift of two more private guards Sunday-Saturday. (Note: because these two projects are located close together we can cover it with just two guards per.)
Punchbowl Homes	$128,832	$64,416	$193,248	Currently we have two-8 hour shifts of two-private guards Sunday-Saturday. We will add one more 8 hour shift of one-private guard.
Makamae	$128,832	$64,416	$193,248	Currently we have two-8 hour shifts of two-private guards Sunday-Saturday. We will add one more 8 hours shift of one-private guard.
Totals	$1,680,409	$1,237,484	$2,917,895	
Balance of $1.5 million			$82,105	For security environmental design strategies
			$3,000,000	Security cost for the above nine projects

Note: our goal is to try and incorporate off duty H.P.D. and/or off duty sheriffs officers to work with our current private security contractors. In order for our security program to be successful in some of our major problem projects we must have staff working there that has arresting powers.

Section 8 Subsidy Programs Branch
Program Report

As of November 30, 2007

Calendar Year Report (Cumulative Trend)

- For CY 2007, unadjusted average monthly voucher lease up is 1,797 or 58.77% of the total 3,058 baseline vouchers.
- The Housing Assistance Payments (HAP) unadjusted average annual budget utilization is 94.23% of the total annual allocated budget of $17,408,280 or $1,450,690 per month.
- The monthly average per unit cost subsidy is $761.00 per month. The amount reflects the difference between what the family pays towards rent and the approved payment standard. Payment standards vary among bedroom sizes.
- The values for past months may not be the same as reported in the past reports due to retroactive adjustments in lease up and subsidy payments.

Monthly Report (Monthly Snapshots)

	January	February	March	April	May	June	July	August	September	October	November

FOR ACTION

SUBJECT: Rental Increase for the Ke Kumu Ekahi (aka Ke Kumu at Waikoloa) Rental Project

I. FACTS

A. Ke Kumu Ekahi is a tax credit project located in Waikoloa Village on the Island of Hawaii comprised of 48 two-bedroom units (47 rentals and 1 resident manager).

B. In a joint effort to provide affordable housing in the area, the Hawaii Housing Authority (HHA), Housing Finance and Development Corporation (HFDC) and Nansay Hawaii, Inc., as General Partner of KKLP (Ke Kumu Limited Partnership), collaborated to develop the project in 1993.

C. HHA leased the land to KKLP for $1 per year for a 15-year term which expires on December 25, 2007.

D. KKLP structured and developed the project in 1993 with Federal and State tax credits.

E. HFDC provided the interim financing for the project from the Dwelling Unit Revolving Fund (DURF) in the amount of $6,076,816 which has been paid in full.

F. HHA loaned $426,100 to KKLP for the development of the project. The amount of initial principal plus the accrued interest at 9% per annum equaling $1,078,000 are payable to Hawaii Public Housing Authority (HPHA), as successor agency to HHA, on January 1, 2010.

However, on December 13, 2008, the end of the tax credit compliance period, HPHA will have first right of refusal to purchase the improvements for $1,078,000, an amount equal to the principal plus interest loaned by HHA to KKLP (HPHA can own the improvements by essentially forgiving the loan).

Issues to be considered prior to acquiring the improvements are:

1. The liability for renovations to meet the Fair Housing accessibility (which could cost several million dollars) and
2. Rent restrictions for an additional 15 years under the terms of the Low Income Housing Tax Credit (LIHTC) award.

G. HHA also entered into a sub-lease agreement with KKLP through December 25, 2007 to lease the improvements at $184,965 per year. The lease rent includes the mortgage payments on the improvements and an administrative fee of approximately $43,833 to Nansay Hawaii, Inc.

Due to the project's inability to meet all operating expenses, the $43,833 Nansay Hawaii, Inc. fee portion of the lease rent has not been paid since the beginning of the project.

H. As sub-lessee of the improvements, HPHA, as successor agency to Housing and Community Development Corporation of Hawaii (HCDCH) and HHA, is responsible for the repair and maintenance of the buildings at its sole cost and expense. The current monthly income of $29,800 (see page 3) is insufficient to cover the monthly expenses of approximately $39,400. The budget reflects a monthly shortfall of $9,000. This amount does not include the $3,653 fee portion of the lease rent due Nansay Hawaii, Inc. which Nansay Hawaii, Inc. has agreed to defer because of cash flow problems. However, at $43,833 times 14 years, the total deferred amount without interest will be $613,662.

II. DISCUSSION

A. The project rents are limited by the LIHTC maximums for the Island of Hawaii (see page 4).

B. There has been no rent increase since the project was built partly because during the initial years of operations, the project suffered from a lack of families who could pay the rents. Vacancies were as high as 25%.

C. The project has maintained a high occupancy rate in recent years (see page 5) and an analysis of the incomes of the current occupants indicates that the majority of the households had incomes or resources to support a rent increase. There is a 60% of median income maximum for initial occupancy. There is no maximum income for continued occupancy.

D. The maximum monthly rent that can be charged at Ke Kumu is $721 (an increase of $110 over the current $611 or an 18% increase. See page 6). The maximum LIHTC two bedroom rent for Big Island is $841, less $120 for tenant to pay their utilities is $721.

Although an increase of $191 from $611 to $802) per unit would be required in order for the project operations to break even, this is not allowed by the Internal Revenue Service rules for the LIHTC program.

E. Because of the Hawaii Housing Finance and Development Corporation's (HHFDC) project based Rental Assistance Payments (RAP) subsidy (up to $175 a month) and the income of the current occupants, a rent increase of $110 would impact the current tenants as follows: 34 households (79%) would pay no more than 30% of their income for rent, 4 (9%) other households would pay between 31% and 40% and the remaining 5 households (12%) would pay over 41%. There are currently 4 vacant units.

For Board information, spreadsheets showing a) current rents, b) $50 increase, and c) $75 increase are attached as pages 7, 8 and 9.

The HUD Fair Market rent for the Big Island is $998 (minus $120 for utilities = $878), although the actual rents for West Hawaii are generally higher. Thus, the $721 proposed would be $157 less than the Fair Market Rent (HUD Section 8 standard used here for comparison) for the Big Island as a whole.

The HHFDC recently announced that effective January 1, 2008, the rents for existing tenants at its Kamaaina Hale project (all units are two bedrooms) in Kailua-Kona will increase from $340 per month to $561 per month. New tenants whose income is between 60% and 80% of the median are paying $841 and others are paying $1,121.

HHFDC's Lailani project's Rental Housing System program in Kealakehe on the Big Island, two bedroom rents increased to $750 from $720 per month on October 1, 2007.

III. RECOMMENDATION

That the Board of Directors approve staff to submit a request to the Hawaii Housing Finance and Development Corporation for a rent increase for the Ke Kumu Ekahi project to the maximum allowable tenant contribution and that HPHA staff be authorized to annually request that the rents be adjusted to the maximum tenant contribution.

SUBJECT: Homeless Programs Budget Request – FY 2009

I. In preparation for the 2008 State Legislature the State Homeless Programs (HPHA) has submitted a budget request to the Governor for an additional $5,300,000 for operations of homeless programs. The current allocation for FY 09 is $12,380,806. The additional appropriation would bring the budget total to $17,680,806.

II. The Governor approved an additional appropriation of $4,300,000 for submittal to the Legislature, which would bring the total budget request to $16,680,806.

III. The justification for the additional operations funding is as follows ($1.85 million + $3.45 million = $5.3 million):

A. The funds appropriated by the Legislature in the FY 08 budget was $1.85 million less than was requested in last year's budget, and the funding shortfall was made up in a separate one-year appropriation. The funding shortfall is a recurring need which is part of the new budget request.

B. Five new shelters will come on line in FY 2009, hence the additional $3.45 million was requested to fund shelter services.

July 2009 – Building 36 at Kalaeloa (72 units)
Aug. 2009 – Villages at Maili in Waianae (80 units)
Aug. 2009 – Kahikolu in Waianae (capacity of 262 persons)
July 2009 – Kauai Judiciary Bldg. transitional housing (20 families)
July 2009 – Two transitional houses, in Hilo (12-18 persons)

The new inventory will provide increased shelter capacity of 886 persons.

However, if the completion of shelter development for the above projects is delayed, $2.45 million in operations funding for the new shelters and 1.85 million for the budget shortfall ($2.45 million + $1.85 million = $4.3 million) should be adequate.

IV. Additionally, Homeless Programs has requested Capital Improvement Project (CIP) funds totaling $32 million: $20 million for a permanent shelter facility to replace the Kakaako Next Step Emergency Shelter and $12 million for a new shelter in Kona, comprised of 25 transitional shelter units and 25 affordable rental units. The Kona Shelter is needed to replace Kawaihae Transitional Shelter, the only Kona homeless facility, which must close in June 2009, due to building deterioration and cesspool issues.

V. The Governor's budget includes the $20 million requested for the Next Step replacement shelter.

VI. Attached is the current budget for the State Homeless Programs for FY 2008. It identifies all of the current funding sources and how the funds have been designated. The special legislative appropriations (CIP and GIA) are for the current year only, and are not expected to recur in the coming year. The federal allocations are expected to remain the same in the coming year.

SUBJECT: Future Status of Banyan Street Manor (Section 8 New Construction Program)

I. FACTS

The current status of Banyan Street Manor remains in need of attention and resolution.

Currently the deficiencies are:

A. Below Average Management review conducted on 4/18/2006 which is still open and findings have not been closed.

B. Management Agent Certification expired on 5/31/2006.

C. Delinquent Annual Financial Statement (AFS) for years ending 5/31/2006 and 6/30/2007. The 6/30/2005 AFS requires a redeposit of $6,850 to the Residual Receipt account to clear the deficiency, which has not been made.

D. No request for renewal of the Housing Assistance Payments (HAP) contract has been received, which actually expired on 8/31/2007. In August 2007, HUD granted a 3 month extension to allow the Hawaii Public Housing Authority (HPHA) the opportunity to correct the deficiency.

E. The current monthly HUD mortgage payment is delinquent.

As of December 11, 2007, none of the deficiencies were addressed.

II. DISCUSSION

HUD proposed the following options to consider:

A. Option 1: Based on the last known balance in the reserve for replacement, there is a total of $2,370,420. These funds could be used to pay down or pay off the existing HUD insured mortgage. With the HUD mortgage paid off, HUD could cancel the Section 8 HAP contract and issue Section 8 vouchers to the eligible residents in occupied units. HUD would agree to do a short term renewal to accomplish this.

B. Option 2: Refinance the existing HUD insured mortgage. By refinancing the existing HUD mortgage, sufficient funds would be borrowed to clear all the health and safety issues and upgrade the units. Once the rehabilitation of the units are complete, a request for a long term HAP contract would be required.

C. Option 3: Exercise the option to purchase the land from the City's Honolulu Redevelopment Agency (HRA) at 75% of the fair market value. Refinance the existing HUD mortgage as noted in option 2 along with long term HAP contract.

D. Option 4: Provide the existing tenants with a one-year Section 8 opt-out notification. During this time, apply/obtain a HUD substantial rehabilitation loan which would maintain the property as a 221d3 affordable complex. The loan should be adequate to insure the units are rehab to market rentable standards. The current Section 8 residents could exercise the use of their voucher to move to another complex.

These options are provided for discussion purposes. Approval and financial qualification will be required. Because the current mortgage is delinquent and the current HAP contract expires on 12/31/2007, HUD requires a solid and workable direction no later that 12/31/2007. Failing to do so will cause HUD to proceed with the non renewal of the HAP contract and the requirement to pay off the current HUD mortgage using the existing reserves.

Under Option 1, a prepayment of the mortgage would not leave funds to pay the current repair contract that will address some of HUD's issues. The loss of the Section 8 HAP contract will hamper HPHA's ability to continue to modernize the units and provide housing to existing clientele.

Option 2. Re-financing the existing HUD insured mortgage and borrowing additional funds to complete the modernization of the project and entering into a long term HAP contract is the best alternative. Selling the project to a private owner who specializes in operating these types of projects would be more beneficial to the residents and the project. HPHA recently executed contract for $976,000 for repairs to the roof, modernization of 9 units and installation of a video security system, estimated completion date to be provided at later date.

Option 3. Exercising the option to purchase the land from Honolulu Redevelopment Agency (City and County of Honolulu) and refinancing the project to generate funds to modernize the project and entering into a long term HAP contract with HUD could also be accomplished by a private owner. The cost to purchase of the land from the City and County of Honolulu based on the assessed value of the land would be $2,800,350. There would be no advantage to owning the land if a lease can be negotiated for this affordable rental project.

Option 4. Opt-out of the Section 8 contract would hamper the ability of the owner to continue to rent units to the existing clientele. Converting the property to a 221d3 could be an issue for HPHA because there is no staff familiar with administering this program. This could be an option for a private owner if the project is sold.

Other issues have or are being resolved. The managing agent paid the November and December mortgage payments on December 11, 2007. The delay was due to the transfer of the records and funds from Urban Realty to R & L Realty. On December 18, 2007, R & L Realty was instructed to make the delinquent residual receipts deposit of $6,850.

A short term HAP contract renewal was executed with HUD in September to cover the period September 1 to December 31, 2007. HPHA submitted a one-year HAP renewal contract to HUD on December 18, 2007.

HUD has had several issues with HPHA's operation which included the inability to procure and implement major repair and maintenance projects, make changes to policies and procedures to accommodate changing conditions (eviction procedures took two years to change) and lease violations. HPHA has addressed the repairs with the current repair contract. The eviction procedures have been implemented and the managing agent has submitted four lease termination cases to HPHA for referral to the attorney general's office. The security and lease violations are being addressed with the implementation of the management

assistants program in R & L Realty's management contract and the installation of security cameras. Law enforcement agencies conducted a drug raid of two Banyan Street Manor units with the cooperation of the management agent. Lease termination referrals will be submitted upon receipt of the police reports. While these issues have been addressed. HUD is concerned about the length of time required to comply with state rules and regulations.

III. RECOMMENDATION

That the HUD-suggested options for the future status of the Banyan Street Manor be referred to a task force for investigation with staff assistance.

FOR INFORMATION

SUBJECT: State Public Housing Rent Increase

I. FACTS

A. The six project (288 units) State-Aided Family Public Housing (SFPH) program does not receive annual operating subsidies. The projects are Hauiki Homes and Puahala Homes on Oahu, Lokahi in Hilo, Ke Kumu Elua in Waikoloa, Kahale Mua on Molokai and Kawailehua in Koloa on Kauai.

B. Tenant rent for the program is 30% of adjusted household income or the minimum rent, whichever is greater. The rents include water, electricity and gas.

C. The program originally was set up as a transition to unsubsidized rentals for families that became ineligible for federal Low Income Public Housing (LIPH) at a time when the federal public housing program required families to vacate when they reached a certain income level. HUD no longer has an income limit for continued occupancy for the federal LIPH.

D. The original income limits for admission and continued occupancy for SFPH were higher than the LIPH limits. The current SFPH program maximum income limit for admission is the HUD Very-Low Income (50% of median) and for Continued Occupancy is the HUD Low Income (80% of median). These limits were adopted in December 2001.

In contrast, the maximum income limit for admission to federal LIPH is the HUD Low Income (80% of median) limit. Therefore, the income limit for admission to the SFPH program is lower than the federal LIPH, and the SFPH requires tenants to vacate when their income increases. This is the exact opposite of why the SFPH program was developed.

E. The SFPH has been operating at a deficit for a number of years. Two recent attempts to increase rents were rejected by the Board of Directors of the Housing and Community Development Corporation of Hawaii.

F. The program would need to collect an average of $752 per unit per month (full occupancy) to generate income to offset the proposed $2.5 million FY08 operating budget. Current average rent is $301 per unit or about 40% of the rent needed.

II. DISCUSSION

A. The Hawaii Public Housing Authority (HPHA) is reviewing the Central Office allocation to the program in order to reduce expenses. The Central Office allocation accounts for about 26% of the program expenses. The Central Office cost for SFPH units is $2,226 per unit per annum, while the allocated Central Office costs for LIPH is about $968 per unit per annum.

B. Unless there is a drastic overhaul of the program rent structure by going to a flat rent (average monthly rent would need to increase from $301 to $752 per unit), there is no short term solution to increasing rent revenue.

C. A long term solution is to admit higher income families to the program by:

1. Increasing the income limits for admission from the HUD Very-Low (50% of median) to the Low (80% of median).

2. Increasing the income limits for continued occupancy from HUD Low (80% of median) to 100% of the median, or eliminating the limits for continued occupancy entirely.

3. Adopting program preferences to admit higher income families such as a preference for working families.

4. Increasing minimum rents for new admissions.

III. RECOMMENDATION

Refer this issue to a Board task force with staff assistance to provide data, review how other states with state public housing (New York, Massachusetts, Connecticut, and Rhode Island) structure the differences, compare with Hawaii Housing Finance and Development Corporation rents, and propose to the Board of Directors how rents for state public housing should be structured.

The State Elderly Housing program rents should also be referred to the task force.

FOR DISCUSSION

SUBJECT: Information on Preferences for Federally-Assisted Housing Projects and Site-Based Waiting Lists

I. FACTS

A. On November 7, 2007, the Hawaii Public Housing Authority (HPHA) Board Chair, Executive Director and staff attended the Senate Committee on Human Services and Public Housing and the House Committee on Human Services and Housing quarterly meeting to discuss various issues related to public housing.

B. The issue of preferences was raised at the meeting as there were concerns that the "hidden" homeless—families who were doubled up and those who did not have any of the three preferences under the current rules, weren't given the same opportunity for housing as others. It was questioned whether the system of preferences fairly addressed the housing needs for all applicants.

C. As a result, it was requested that the HPHA Board of Directors consider the possibility of modifying the preferences to meet the needs of individual communities rather than having the same preferences applied throughout the state. HPHA was also asked to review the possibility of site-based waiting lists.

II. DISCUSSION

A. Current Preferences

Under Chapter 17-2028 "Federally-Assisted Housing Projects," Hawaii Administrative Rules, applicants shall be given preference if they fall within the following three categories:

1. Involuntarily displaced applicants who are required to vacate their rental unit as a result of: disaster; federal, state or local government action; action by a housing owner which is beyond an applicant's ability to control; or
2. Victims of domestic violence who are participating in or graduated from a program with case management in a domestic violence shelter or clearance house; or
3. Homeless persons who are participating or graduating from a homeless program (which includes transitional shelters, supportive housing programs, and unsheltered homeless programs), and who are in compliance with a social service plan.

The suggestion to apply different preferences to different communities may pose questions, some of which may not be readily apparent on the surface regarding HPHA's obligation to be consistent with all applicable civil rights and fair housing laws and regulations. It may also pose concerns of steering and segregation.

Another suggestion to fairly address preferences for all eligible families may be to remove all preferences and having applicants selected purely by the date and time of application.

The Quality Housing & Work Responsibility Act of 1998 (QHWRA) repealed the mandatory federal preferences which included applicants involuntarily displaced, living in substandard housing or paying more than 50% of their income for rent. HUD does allow the Public Housing Authority (PHA) to adopt local and ranking preferences but it must be included in the Annual Plan and adopted by Board resolution.

B. Site-based Waiting Lists

HUD does permit the PHA to establish site-based waiting lists for admissions to public housing projects. Site-based waiting lists would allow applicants to apply directly for the project(s) in which they seek to reside. Procedures must be in compliance with applicable civil rights laws.

24 CFR (Code of Regulations) 903.7(b)(2) sites specific requirements for adopting site-based waiting lists:

Notwithstanding any other regulations, a PHA may adopt site-based waiting lists where:

1. The PHA regularly submits required occupancy data to HUD's Multifamily Tenant Characteristics Systems (MTCS) in an accurate, complete and timely manner;
2. The system of site-based waiting lists provides for full disclosure to each applicant of any option available to the applicant in the selection of the development in which to reside, including basic information about available sites (location, occupancy, number and size of accessible units, amenities such as day care, security, transportation and training programs) and an estimate of the period of time the applicant would likely have to wait to be admitted to units of different sizes and types (e.g., regular or accessible) at each site;
3. Adoption of site-based waiting lists would not violate any court order or settlement agreement, or be inconsistent with a pending complaint brought by HUD;
4. The PHA includes reasonable measures to assure that adoption of site-based waiting lists is consistent with affirmatively furthering fair housing, such as reasonable marketing activities to attract applicants regardless of race or ethnicity;
5. The PHA provides for review of its site-based waiting list policy to determine if the policy is consistent with civil rights laws and certifications through the following steps:

    a) As part of the submission of the Annual Plan, the PHA shall assess changes in racial, ethnic or disability-related tenant composition at each PHA site that may have occurred during the implementation of the site-based waiting list, based upon MTCS occupancy data that has been confirmed to be complete and accurate by an independent audit (which may be the annual independent audit) or is otherwise satisfactory to HUD;
    b) At least every three years the PHA uses independent testers or other means satisfactory to HUD, to assure that the site-based waiting list is not being implemented in a discriminatory manner, and that no patterns or practices of discrimination exist, and providing the results to HUD;
    c) Taking any steps necessary to remedy the problems surfaced during the review; and
    d) Taking the steps necessary to affirmatively further fair housing.

III. RECOMMENDATION

This topic be referred to one of the task forces for more in depth discussion, including analysis of the current waitlist system, review of other waitlist systems around the country, and recommendation to the Board on whether changes are needed.
